G
When I think about what happened I don't harbor any pain
C G C G
My shackles have been broken and I've dropped that ball and chain
C G
In spite of all I've fallen for
C G
There's no hard feelings anymore
C D7 G
You're never gonna break my heart again

C G
Happily never after is the state of our affair
C G C D7
The plans that we once had are now a castle in the air
C G
I've come down from my overdose
C G
I won't be haunted by your ghost
C D7 G
You'll always be the best I never had

G
There's nothing to be gained from looking down on yesterday
C G C G
I won't condemn the past because it's brought me here today
C G
This will not be my bitter end
C G
The future's just around the bend
C D7 G
I won't let anything get in my way

C G
Happily never after is the state of our affair
C G C D7
The plans that we once had are now a castle in the air
C G
I've come down from my overdose
C G
I won't be haunted by your ghost
C D7 G
You'll always be the best I never had
