G Am D  
I want to lie in bed at night and hold you  
G Am Em  
Because that's where I feel that I belong  
G Am D  
I want to tell you things I've never told you  
Em Am G  
Because we haven't spoken for so long

G Am D  
I want to taste the fruit that was forbidden  
G Am Em  
For all the days I sat and wondered when  
G Am D  
I want to show you things I've always hidden  
Em Am G  
Because I want to see you once again

C Am  
I haven't seen you in a while  
D Em  
But you still can make me smile  
C Am G  
And I'll have to say I love you in a dream  
C Am  
For in a dream is where we meet  
D Em  
And the love we make is sweet  
C Am G  
So I'll meet you every night, girl, in a dream

G Am D  
My love for you is an incessant hunger  
G Am Em  
It's you, my darling, that I want to hold  
G Am D  
And though I am not getting any younger  
Em Am G  
Without you here I feel so very old

G Am D  
You are my love, my friend, my consolation  
G Am Em  
My heart, my light, my darling, and my girl  
G Am D  
You are the core of my imagination  
Em Am G  
Our reunion I won't miss for all the world

C Am  
I haven't seen you in a while  
D Em  
But you still can make me smile  
C Am G  
And I'll have to say I love you in a dream  
C Am  
For in a dream is where we meet  
D Em  
And the love we make is sweet  
C Am G  
So I'll meet you every night, girl, in a dream
