G C G
As I look out at the night
C G D7
And I see the moon is shining bright
G C G D7
I know that I will have no fear
G D7 G
It's springtime when you're here

G C G
As the wind blows through my hair
C G D7
And the snow falls through the frosty air
G C G D7
I know that you are always near
G D7 G
It's springtime when you're here

G C G
As the snow falls to the ground
C G D7
And there is darkness falling all around
G C G D7
I know I'll never shed a tear
G D7 G
It's springtime when you're here
