G Am D
I just can't keep it in me any longer
G Am Em
There's something that you really ought to know
G Am D
And every day I get a little stronger
Em Am G
But I still can't find the strength to let it show

G Am D
And every day, I'm always thinking of you
G Am Em
And every night, you show up in my dreams
G Am D
And I wish I weren't too shy to say I love you
Em Am G
My heart is nearly bursting at the seams

C Em
'Cause baby, you're the one that I want
Am G
The one that I need, I just have to say
C Em
You've really got a hold on my heart
Am G
A hold on my mind, that won't go away

C Em
Baby, you're the one that I want
Am G
The one that I need, I just have to say
C Em
You've really got a hold on my heart
Am G
A hold on my mind, that won't go away

G Am D
I tried to tell you once, but then I never
G Am Em
Really got a chance to speak my mind
G Am D
And it seems like it goes on like this forever
Em Am G
I guess true love is just too hard to find

G Am D
But if you give me a chance, I swear I'll take it
G Am Em
To be with you is my heart's one desire
G Am D
When you're with me I know that I can make it
Em Am G
You know you always set my heart on fire

C Em
'Cause baby, you're the one that I want
Am G
The one that I need, I just have to say
C Em
You've really got a hold on my heart
Am G
A hold on my mind, that won't go away

C Em
Baby, you're the one that I want
Am G
The one that I need, I just have to say
C Em
You've really got a hold on my heart
Am G
A hold on my mind, that won't go away
